TERMINAL DISCLAIMER

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

On behalf of the Applicants and the assignee of this patent application, the undersigned attorney of record hereby disclaims the terminal part of any patent granted on the above-identified application which would extend beyond the expiration dates of the full statutory terms defined in 35 U.S.C. §§154 to 156 and 173 of U.S. Patent Nos. US 6,416,690 B1 and US 6,570,714 B2. It is further agreed that any patent granted on the instant application shall be enforceable only for and during such period that it and U.S. Patent Nos. US 6,416,690 B1 and US 6,570,714 B2 are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee(s), its successors and assigns.

In making the above disclaimer, there is no intent to disclaim the terminal part of any patent granted on the instant application that would extend to the expiration dates of the full statutory term as defined in 35 U.S.C. §§154 to 156 and 173 of U.S. Patent Nos. US 6,416,690 B1 and US 6,570,714 B2, as presently shortened by any terminal disclaimer, in the event that either patent later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321, has all claims cancelled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

The undersigned certifies that the assignee is indeed the owner of the entire right, title and interest in the instant patent application and in U.S. Patent Nos. US 6,416,690 B1 and US 6,570,714 B2. The undersigned has reviewed all documents in the chain of title of the instant patent application and of U.S. Patent Nos. US 6,416,690 B1 and US 6,570,714 B2, and certifies that, to the best of undersigned's knowledge and belief, title to all three is in the assignee.

The undersigned hereby declares that all statements made herein of his own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements, and the like so made, are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,

M. Henry Heines
